DETAILED ACTION

Response to Amendment

The amendment filed 06/26/2006 was entered.

Allowable Subject Matter

Claims 1,3-12 and 14-27 are allowed.

The following is an examiner's statement of reasons for allowance:

With regards to claims 1, 12 and 24, the prior art on record fails to reasonably suggest or render obvious a stand-alone multiple gas analysis apparatus comprising a FTIR analyzer, an interferometer, a gas sample cell, an infrared detector and a molecular oxygen sensor, wherein the apparatus further includes a single gas inlet conduit connecting said FTIR, said interferometer, said cell and said molecular oxygen sensor, in combination with the rest of claim limitations. As such, applicant's disclosure provides a novel and nonobvious improvement over the prior art. Accordingly, claims 3 - 11, 14 - 23, and 25 - 27, also are allowed, since they further limit claims 1, 12 and 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see Remarks, filed 6/26/2006, with respect to 1,3-12 and 14-27 have been fully considered and are persuasive. The rejection of claims 1,3-12 and 14-27 has been withdrawn.
